Learning Objectives

MedBridge
Current Concepts in Cerebral Palsy
Linda A. Kliebhan, PT, C/NDT

Chapter 1 Objectives: Defining Cerebral Palsy
• Define the condition of Cerebral Palsy, its causes, and incidence
• Describe the various classifications of Cerebral Palsy
• List the basic components of the GMFCS, MACS, and CFCS
• Understand the developmental process seen in infants diagnosed with Cerebral Palsy

Chapter 2 Objectives: Hypertonicity
• Define hypertonicity and related impairments
• Describe common distribution of hypertonicity in children with Cerebral Palsy

Chapter 3 Objectives: Dystonia, Choreaathetosis, and Ataxia
• Define dystonia, choreoathetosis, and ataxia
• Differentiate dystonia, choreoathetosis, and ataxia
• Recognize impairments related to dystonia, choreoathetosis, and ataxia
