

## **Learning Objectives**

MedBridge

*ASD Learning Style Profiles: People Oriented, Social Modeling and Cues*

Patrick Rydell, EdD, MS

### **Course Objectives**

- The learner will be able to provide 4 practical applications of LSP Components #4 and #5 for program intervention as teams prepare the child for school success.
- From the Q & A discussions, the learner will be able provide a 2 potential explanations for why a child with ASD might experience emotional dysregulation based on the individual child's learning style challenges.
- From the panel's case example discussions, the learner will be able to provide 3 ways to incorporate LSP components #4 and #5 strategies into their practice.
