# Learning Objectives

MedBridge

*Clinical Considerations in Pediatric TBI: Assessment*

Angela Ciccia, PhD, CCC-SLP

## Course Objectives:

Upon completion of this course, learners will be able to:

- Describe current trends in incidence and prevalence of pediatric traumatic brain injury
- Describe the impact that a TBI received during childhood has on the developmental processes
- Describe the process of habilitations and rehabilitation in pediatric TBI
- Identify the role of the ICF in management of pediatric TBI
- Identify appropriate assessment tools and strategies along the management continuum for pediatric TBI
- Interpret the case study in order to review the assessment process
