Conservative Management of the ACL Deficient Knee

Course Objectives

MedBridge
Conservative Management of the ACL Deficient Knee
Eric Robertson, PT, DPT
Orthopedic Certified Specialist
Fellow, American Academy of Orthopedic Manual Physical Therapists

Objectives:
1. Describe usual care following ACL injury
2. Define the terms Copers and Non-Copers and describe the characteristics of each
3. Examine outcomes following conservative management of ACL injury
4. Review evidence-based interventions for non-operative management of the ACL-deficient knee
