Learning Objectives

MedBridge
Differentiating Dementias: Frontal, Temporal and More
Teepa Snow, MS, OTR/L, FAOTA

Course Objectives:
Upon completion of this course, learners will be able to:

• Distinguish between FTD and other forms of dementia based on observable symptoms and progression patterns.
• Compare FTD and other dementias regarding initial symptoms, progression patterns, and management and treatment strategies.
• Identify differences in appearance of symptoms and functions of people living with FTD and different types of dementias.
• Distinguish between Temporal and other forms of dementia based on observable symptoms and progression patterns.
• Compare Temporal and other dementias regarding initial symptoms, progression patterns, and management and treatment strategies.
• Identify differences in appearance of symptoms and functions of people living with Temporal and different types of dementias.
