Communicate and Connect: Using Technology with Aphasia

Megan Sutton, MS, CCC-SLP

Course Objectives:

- Describe the A-FROM model and how it relates to the life participation approach to aphasia.
- Describe how the life participation approach to aphasia can be used in therapy to set goals in all domains.
- Review types of AAC that work best with aphasia
- Describe emerging app-based technology and tools available for use in aphasia treatment.
- Describe how social media, games, and mobile devices can be used to help people with aphasia avoid isolation and practice skills.
