Learning Objectives

MedBridge

Flow Phonation

Jackie Gartner-Schmidt, PhD, CCC-SLP, ASHA Fellow

Course Objectives:

Upon completion of this course, learners will be able to:

- Differentiate breath-holding via pressed phonation from flow and breathy phonation
- Recognize the signs and symptoms of patients using decreased airflow while speaking
- Detect signs and symptoms of patients “holding their breath” when they are not speaking
- Define the hierarchical levels of flow phonation
