Learning Objectives

MedBridge Education

Michael L. Fink, PT, DSc, SCS, OCS

Chapter 1: Low Back and Lumbar Spine

The online learners will

• Identify common musculoskeletal and non-musculoskeletal pathology in the low back and Lumbar spine regions
• Review common signs & symptoms of select pathologies within each region
• Highlight select CPRs, risk factors, interview questions, and associated diagnostic accuracy statistics to aid in differentially diagnosing
• Identify situations that require a urgent medical referral

Chapter 2: Sacroiliac, Sacrum, and Coccyx

The online learners will

• Identify common musculoskeletal and non-musculoskeletal pathology in and around the Sacroiliac Joint region
• Review common signs & symptoms of select pathologies within this region
• Highlight select CPRs, risk factors, physical exam findings, and associated diagnostic accuracy statistics to aid in differentially diagnosing
• Identify situations that require a urgent medical referral

Chapter 3: Abdomen and Pelvis

The online learners will

• Identify common musculoskeletal and non-musculoskeletal pathology in the Abdominal and Pelvic regions
• Review common signs & symptoms of select pathologies within each region
• Highlight select risk factors, interview questions, and physical exam findings to aid in differentially diagnosing
• Identify situations that require a urgent medical referral

Chapter 4: Other Systems

The online learners will
• Identify additional common non-musculoskeletal pathologies that can mimic musculoskeletal conditions in the above regions
• Review common signs & symptoms of select systemic pathologies within each region
• Identify situations that require a urgent medical referral
