Learning Objectives

MedBridge
*Involving Caregivers in Speech Therapy*
Ruth Stoeckel, PhD, CCC-SLP

Chapter 1: Why should Caregivers be Involved in Treatment of Speech-Language Disorders?

- Identify evidence suggesting benefit of caregiver involvement
- Examine clinician-caregiver perspectives that may influence caregiver involvement

Chapter 2: Challenges for Including Caregivers

- Describe barriers to involving caregivers in treatment
- Consider issues specific to cultural differences.

Chapter 3: How to Include Caregivers

- Identify factors that influence involvement
- Describe activities that can be used to involve parents

Chapter 4: Examples of Caregiver Involvement

- Demonstrate problem-solving with case studies
- Recognize how involvement can be individualized for a given child and family
