Learning Objectives

MedBridge
Evaluation of Speech/Resonance Disorders and Velopharyngeal Dysfunction
Ann W. Kummer, PhD, CCC-SLP, FASHA

Course Objectives:
Upon completion of this course, learners will be able to:

- Use effective and appropriate procedures for the perceptual assessment of speech, resonance, and velopharyngeal function
- Use effective methods for an intraoral examination and discuss important findings
- Describe the use, advantages, and disadvantages of instrumental procedures in the assessment of velopharyngeal function
